GENERAL EDITORS

Arctic Adaptations: Native Whalers and Reindeer Herders of Northern Eurasia (Arctic Visions Series)

The Arctic has long appeared to outsiders as a vast, forbidding wasteland or, alternatively, as a storehouse of riches ready for the taking by those able to conquer the harsh physical environment. More recently, a competing vision paints the Arctic as the last pristine wilderness on earth, a place to be preserved for future generations.

Arctic Visions confronts these conflicting and simplistic portraits, conceived in ignorance of the complexities of the circumpolar world and without appreciation of the viewpoints of those indigenous to the region. Drawing upon an international community of writers who are sensitive to the human dimensions, Arctic Visions will explore political, strategic, economic, environmental, and cultural issues.

The Arctic has always been a place of human and natural drama, an arena for imperial ambitions, economic exploitation, ecological disasters, and personal glory. As the region gains importance in international affairs, this series will help a growing audience of readers to develop new and Arctic Adaptations: Native Whalers and Reindeer Herders of Northern Eurasia (Arctic Visions Series) more informed visions of Arctic Adaptations: Native Whalers and Reindeer Herders of Northern Eurasia (Arctic Visions Series) the Arctic.
