About The Author

I've been a betting man and studious follower of many forms of betting for over 30 years and, during that time, I have created many of my own betting systems (mostly, but not entirely, all horse racing and football based) for my own personal use. In the dark ages before betting exchanges, creating your own system wasn't that easy Betting System Secrets - The Each Way Back And Lay but it was, nevertheless, a great training ground for what was to come.

Since the introduction of the Betting Exchange, thanks particularly to [Betfair.com](#), Betting System Secrets - The Each Way Back And Lay as an alternate media for placing bets, I have developed many original betting systems that I have made available to others. Most of these are "low-risk" strategies, some have even come very close to being "no-risk" strategies. The problem with the "no risk" strategy of course is that even then technology glitches and human nature can still create "risk" even with these.

Over the last, nearly, ten years, thousands of people have downloaded, read, watched and used systems and strategies Betting System Secrets - The Each Way Back And Lay that I have developed. Some have paid large sums of money to meet with me and listen to what I had to share at Seminars and Workshops and it is fair to say that I was one of the first to become heavily involved in exchange based betting systems when I started work on them in 2002.

You see, I have always looked for the edge in betting and my ultimate goal has always been to create a system that simply guarantees that you cannot lose and, in not losing, you also do not become dependent on keeping in good favour with bookmakers who can, after all, close down a betting Betting System Secrets - The Each Way Back And Lay account on Betting System Secrets - The Each Way Back And Lay a whim.

A no lose situation, whatever anyone might tell you Betting System Secrets - The Each Way Back And Lay to the contrary, is very possible in the gambling world (for example with ARBS*). But it is also, generally, a short-lived period of betting bank invulnerability that one experiences as one part of the betting arsenal after another gets shut Betting System Secrets - The Each Way Back And Lay down or changed beyond recognition.

This no lose "Valhalla" effect normally requires the placing of at least two separate bets in two separate places and, sometimes, in two separate ways. Coming up with a solution that circumnavigates the possible intervention of a Bookie that wants to close your account down is the big problem, as many long-term betting professionals will know. The other big problem of

course is people, not people in general but people who simply will not take the time and trouble to master something properly before diving in with their money.

So Betting System Secrets - The Each Way Back And Lay the real no-lose gamble that will go on and on making money with no problems and no intervention, is a tall order indeed because even when you have the solution, as mentioned earlier, technology or human nature or both can mess it up and, well, to date, that goal (absolutely "no-risk" whoever you) are has not been entirely achieved by anyone that I am aware of.

In fact I have almost certainly come as close to this goal as pretty much anyone could. I ran a seminar a couple of years back where I taught people how Betting System Secrets - The Each Way Back And Lay to achieve this "Valhalla" effect with horse racing and that system I taught then still very much works now providing you haven't had all your bookmaker account doors bolted and barred.

Betting System Betting System Secrets - The Each Way Back And Lay Secrets The Each Way Back Betting System Secrets - The Each Way Back And Lay And Lay

Of you dream Betting System Secrets - The Each Way Back And Lay the available platform for what because pdf you avoid, you could necessarily be out hiring % more in you tended repaid.
