There was a child of a king, who was born in a place far away from his father's kingdom; his mother had died not long after his birth. His father did; however have plans commencing, to Child of a King: Part One: The Second Birth not just bring his son home, but to take the land from its disastrous rulers and give life to all. Evil had suppressed and harassed the area, thus, separating the child from his father. As the boy grew, he would hear rumors that the king had lost a son, although he did not know that it was he. He grew an orphan and like all the rest, with no hope in his heart. He never heard anyone say that the king loved his son or even tried to find his son for that matter, which may have helped him believe in the King. He neither believed in the existence of the King, nor would he have if someone attempted to persuade him. Those who did believe in Him were hush hush; they did not want ridicule or they were Child of a King: Part One: The Second Birth shoving about it, but did not really know the King themselves. Most who lived in this region did not believe in the King themselves. Only a few people had told him some hard things to accept about the King, like once the Kings plans in His book were commencing, He would step off His throne, free all of the oppressed, and throw all those who despised Him in cells so hot that no human heart would survive. Majority Child of a King: Part One: The Second Birth of the populace would laugh at them, but they were not discouraged and kept waving their signs and judgements of the nonbelievers.

Child of a King: Part One: The Second Birth

The evil that lurked around and ruled this medieval kingdom were cunning, relentless, unbeatable, and hidden in the minds, hearts, and spirits of the people. They were not in human

form, but they were in the atmosphere and infected everyone's thoughts. All who comply with the way of life choose for themselves how they lived, whether in blind prosperity, poverty, or addiction; it was their choice and they were left to believe that it was all there was to life. The timid covered in normality and blended in, the rebellious dabbled in addictions and Child of a King: Part One: The Second Birth thought everything should be theirs; the quiet Child of a King: Part One: The Second Birth geniuses kept silent and died alone; and the book smart tunnel-visional men fought against their smart and moderately moral and proper counterparts to selfishly politicize their own destruction like children. There was nothing in the wasteland he called home. Like a kidnap victim with Stockholm syndrome, he lived as such. A chill dark wind swept around town this one afternoon Child of a King: Part One: The Second Birth under the gray cloudy sky. Thick Child of a King: Part One: The Second Birth clouds have encompassed the globe for years. No one bothers to look skyward anymore; the sun hides its glorious face from this region and as far as they can see. It was peaceful and gloomy until a bell was rang in the middle of Child of a King: Part One: The Second Birth town signaling the workers to collect their weekly wages.

The town collected their earnings every Friday near evening time, as the common people push and shove, the poor pickpocket and some briefly fight, and the horse hooves of the rich find the inattentive feet. The streets are chaos every night of every weekend from Friday night to Sunday night – flip a coin to see the likelihood to be robbed or assaulted one weekend night or early morning while sleeping. The safest time to walk was during day on the weekends, however, those who do would get mildly persecuted and called an unkind word; maybe receive an ungodly gesture or object from the bottom of the hearts of those strung out on the streets. If they could tattoo the nonconformist's face, for the entire world Child of a King: Part One: The Second Birth to see their hate of them, they would. But they call the sober one, the evil one, as their children, still in unwashed footed-pajamas carrying a dirty stuffed animal, drug them home. If anyone raised a hand in self-defense, it would be broken and would be cursed out more as if they deserved all evil to chase them into the desert for the wolf's chase or the bitter snow for the wind's bite.
