## Chapter 1

### Meina

“Snooki you better get up before you be late for school again. This your last year and you already fucking up. Don’t be like your brother and drop out. Get up now!”

My father was the definition of annoying. He wakes up at 5am every morning to prepare Money and Power: The Rise of A Young Boss breakfast for us and to make sure I leave out for school before he goes to work. I should be used to this routine but unfortunately I’m not.

My name is Meina Santiago, and my life was peaches and cream up until my mother was found dead seven years ago inside her car. The police said it was an armed robbery but they never found out who did it. My twin brother Meiko and I were only eleven at the time and it tore my family apart. We were forced to move out of our house and into the projects in Miami, Florida.

Little Haiti was not the place to be if you didn’t know anything about that area. Someone was always getting killed or robbed and the police never did anything to solve the problems. I wish I could have had a better life but I had to deal with the cards I was dealt. Ever since my mom’s death, my brother had changed drastically. He dropped out of school last year and Money and Power: The Rise of A Young Boss decided to sell drugs for a living.

At first I was mad at him, but because of the bond we have I let it go. Although were both eighteen and looked identical, he treated me as if I was his little sister and was too overprotective. If I made the wrong move he would know about it and come looking for me. We have that Money and Power: The Rise of A Young Boss twin thing where we feel what the other is feeling, and we sensed when something’s not right. Every day that Meek was outside I prayed for him because of the lifestyle he’s living. He’s very smart and calculating, but you never know when things could get out of hand.

On another note, today is Friday and I couldn’t wait to step out later and see what my girls had planned. Before I jumped in the shower I called my home girl Rayonna to let her know I would be down in thirty minutes. Rayonna lives next door to me and we’ve been friends since I moved here. We’re more like sisters because every time you see me, you see Money and Power: The Rise of A Young Boss her, and it’s always like that. My brother Meek is so in love with her, but she is scared to even give him a chance.

When she was thirteen she was gang raped at a house party with her cousin, and now she is very skeptical of who she let in her personal space. Up and down the block everybody calls us salt and pepper because I am light-skinned and she is dark-skinned.

I’m five-foot-five weighing 155 pounds, with long jet black hair, and a slim waist with the right curves at the back. I always had my C-cup breasts sitting up just right. I was also blessed with

---

dark grey eyes and had a mole just above my lip. My mother was Italian and my father is black, so everybody called me conceited. Rayonna, on the other hand, is dark-skinned and a little shorter than me. She has light Money and Power: The Rise of A Young Boss mocha-colored eyes and her eyebrows always had an arch that made her look Asian in the face. Her body was banging in all the right places and she kept her hair done in the latest styles. Our dream was to become full-time models, but right now were working part-time at DSW shoe store so we could save our money up.

Today I was rocking some all grey Jacob Davis skinny jeans, a white tank top that came above my belly and dipped down in the back. Since it was a little warm outside, I wore my silver and black Jessica Simpson flats and had my hair flat ironed straight. After I got done eating my breakfast, I brushed my teeth, applied my Mac lip gloss, and headed out the door to meet Rayonna.

“Took you long enough. We got fifteen minutes before we’re late again.”

She rolled her eyes, drinking some orange juice. We went to Miami Edison Senior High School and she drove Money and Power: The Rise of A Young Boss us to and from school every day.

“Whatever, let’s go cry baby.” Money and Power: The Rise of A Young Boss

I pushed her while we were getting inside the car. We’d made it Money and Power: The Rise of A Young Boss two blocks and my brother’s bug ass flagged us down.

“What do you want Meek? You Money and Power: The Rise of A Young Boss gone make us late,” Rayonna snapped once again, but in a playful way with him.

“Stop playing with me before you never make it to school.” Money and Power: The Rise of A Young Boss

He winked at her and licked his Money and Power: The Rise of A Young Boss lips.

“Y’all asses nasty as hell. Meek we have to go so I’mma see you later.”

“Ok I was just making sure y’all was going to school. I love you Meina and I’mma see y’all later. Be safe.”

He walked back to his car and we drove off on our way to Money and Power: The Rise of A Young Boss school.

## Chapter 2

### Meiko

*"My bitch bad, looking like a bag of money*

*That bitch bad, looking like a bag of money*

*I go and get it and I let her count it for me*

*I fuck her good and she always ride it for me."*

I looked at my phone ringing and cut it completely off. I was sick of this Money and Power: The Rise of A Young Boss money hungry bitch Tish blowing me up for money like that shit grew on trees. The only reason I kept her around for so long, was because she was down for a nigga when I needed her to be. I met her about three years ago at the bus stop. She was on her way to school and I pulled up and asked her if she wanted a ride. I knew I wasn't no stranger to her because she brought up my street life. Money and Power: The Rise of A Young Boss Tish held my drugs for me, and even went to pick up money off the block whenever I asked. But then she started doing off the wall ass shit, like following me around, and tracking my iPhone.

As soon as I cut her off completely two months ago, she brought me some ultrasound pictures, saying she was three months pregnant. I knew it was my baby, but I wasn't sure if I was ready for all that. I'd slipped up and got her pregnant but, I promised myself, I would never do that shit again. Before I got on, I couldn't even get a decent bitch to look my way without them calling me crazy. Now I'm hot. Everybody wants a piece of Meek.

Ever since I came up, bitches have been throwing the pussy left and right. I was never a petty nigga, so whenever I do fuck around with one of them, I throw them a couple hundreds and I'm on my way. I'm only eighteen and this shit was Money and Power: The Rise of A Young Boss already stressful. That's why I'm focusing more on my money so I can move my family out the 'hood. Although I moved in my own crib a couple blocks away, it's still a must that we moved around.

I'd been hustling since I was sixteen and I been straight ever since. It took a minute for me and my guys Rock and Demon to get noticed but we pushed our way up. We were lil' niggas selling large grams of cocaine and had the blocks popping twenty-four seven. The product was so good our clientele tripled in a couple of weeks and the connect offered us more grams. We started bringing in \$20,000 a day. It didn't take a rocket scientist to see we were built for this shit. Now we're making boss moves and got niggas twice our age working for us.

Of course, more money more problems. We started taking over blocks left and right until Little

---

Haiti was ours. A nigga Money and Power: The Rise of A Young Boss named Mike didn't like that at all, and unfortunately it cost him and his crew a swim with the sharks. Everything about me and my crew shook a lot of people up. We weren't on no terrorizing type of shit, but we definitely didn't approve of niggas trying to step to us. I've been living in these projects for seven years now and it's always been me, Rock, and Money and Power: The Rise of A Young Boss Demon. I met them both on the block and we've been tight ever since. I'm what you would call laid back and I observe everything around me. I'm five-foot-seven, weighing 155 pounds, all muscle, with dark grey eyes and a light-skinned complexion. I have long brown dreads down Money and Power: The Rise of A Young Boss my back and tattoos all over my body.

Rock, on the other hand, was the talker in our group. He was good at getting across to people, which is actually how we got on in the first place. A lot of people don't know that other Money and Power: The Rise of A Young Boss side to him, though. When he was little, he saw his little brother get killed by a stray bullet. After that, he became heartless to certain kinds of individuals. We keep each other grounded and as long as we stick by each other's sides, I know we'll be good and take these streets by surprise.

Demon was viscous in every way possible. He was the one that kept us laced with guns and showed us how to get rid of a body without any evidence coming back to us. I don't think niggas feared me and Rock as much, but Demon had people moving out of the neighborhood and never looking back. Lately, he'd been on some other shit so I've been keeping my eyes on Money and Power: The Rise of A Young Boss him. I keep my eyes open to everything around me, including my boys. This world will suck you dry and leave you stanking if you're not aware of your surroundings. My Money and Power: The Rise of A Young Boss dad always told me in order to survive you have to outthink a thinker, so that's my motto. Tonight we have an important meeting with the connect at Club LIV and I'm chilling trying to get my mind right. I sent Rock and Demon a text Money and Power: The Rise of A Young Boss to remind them of the time and place so we can be on point. An hour later, I was out for the count.

### Chapter 3

#### Rock

Waking up every day was a blessing for a street nigga like me. We were constantly out hustling day in and day out. Although our days of standing on the corner were over with, it was still a hassle picking up money, picking up new shipments, and making sure everybody was straight and nothing was out of the ordinary. Tonight we were going to Club LIV for a meeting with our connect and I'm excited because I know it's all good news. I just wish I could share all

this with Meina, but the way everything set up I know it's a wrap.

A while back, I confessed to her how I wanted to make her my woman and she was down with it. We talked for a couple months and hung out at my crib from time to time but nothing ever got serious. At the same time, I was seeing this Mexican chick named Rosaria thinking they would never cross paths. One night I had Meina over my crib and she was about to give me the pussy for the first time, and all of a sudden this bitch Rosaria climbed through my window with a bat and everything went downhill from there. I don't put my hands on no female period, but that night I put the works on her ass. She was way out of line and disrespectful like she was my woman. After that day, I cut her off completely, and Meina cut me off as well.

Meina forgave me but told me I could never be her man again. That shit low key hurt a lil' nigga's heart. Eventually I got over it and moved on, but the love I got for her was still there. Growing up, I never had a problem getting a female to drop them drawls. Being an old boxing champ, I had muscles on top of muscles. I'm five-foot-nine and 180 pounds solid. I have light brown eyes that stand out because of my very dark complexion, and shoulder length dreads that I always keep styled. My government name is Ramanii Daniels but everyone calls me Rock because I was known for knocking niggas into comas. Money and Power: The Rise of A Young Boss I'm very outspoken and I say what I feel at any given moment.

Anyway, after the meeting we're supposed to chill in the VIP section and I wanted Meina to Money and Power: The Rise of A Young Boss join me, so I sent her a text to see what was up.

*Me: Hey Ma. What you on tonight?*

*Meina: Chilling with my girls as usual. Why wat up?*

*Me: Come chill with us at Club LIV. You and your girls can come.*

*Meina: I'mma see. If I decide to come I'mma let you know.*

*Me: Alright bet. Check you later then.*

*Meina: Ok. Bye.*

Now that I'd gotten that out the way, I decided to stop by Meek's crib so we could check on our blocks, and grab us something to wear from the mall. I knew he was probably asleep so I Money and Power: The Rise of A Young Boss was about to be knocking for a minute. At the same time, I hit up Demon to see if he wanted to go but it was going to the voicemail.

---

Something was up with him, but I let it slide for now.
