## INTRODUCTION

Affirmations are positive statements we tell ourselves. Our mind believes what we tell it. When you tell your brain positive information, you are feeding your brain extremely Positive Thinking: Think Positive Now Because Your Whole Life Depends On It valuable food that heals your mind and body. When you tell yourself something over and over again, it gets recorded Positive Thinking: Think Positive Now Because Your Whole Life Depends On It in your brain; then your mind and body believe it and you become what you have been telling yourself.

When you worry or have negative thoughts about something you obstruct constructive thinking about how to achieve what you want. You focus all your energy on the negative elements of a particular situation and what you put energy into grows.

When you send your brain negative information, you are simply Positive Thinking: Think Positive Now Because Your Whole Life Depends On It feeding it anti-nutrients that harm your mind and body. And the more often you do this, the more you Positive Thinking: Think Positive Now Because Your Whole Life Depends On It ingrain these negative thoughts in your mind. Therefore, when you continually have negative thoughts you will manifest these thoughts in your life.

---

However, you have the power to change your thinking. You can change your negative thoughts into positive thoughts. When you accept that you create your reality then you can choose your reality. You can play a lead role rather than an extra in this game called life. This book is written to help and guide you towards developing a positive thinking and mindset, having good nourishing thoughts as well as staying positive in all aspects of your life. Enjoy!

Positive Thinking: Think Positive Now Because Your Whole Life Depends On It

### **POWER OF POSITIVE THINKING**

Many times today Positive Thinking: Think Positive Now Because Your Whole Life Depends On It people undermine the power of positive thinking. Most people never truly understand the power that positive thoughts have over our everyday lives. It's these same people who believe that success comes from something outside of themselves and most seem to have a hard time

---

creating success in their lives.

Do you possess the power of positive thinking? Thinking positively is one of the few traits one must practice to be able to live a powerful and healthy life. It is really easy to just say that you're thinking of happy thoughts and you are optimistic with something however, it would be harder to Positive Thinking: Think Positive Now Because Your Whole Life Depends On It get it done with.

You know what? A lot of people have been talking about the power of positive thinking and there's a lot to explore on how you can get yourself to think positively. An array of references can show you ways and methods to attain this knowledge; however, no one has really mastered in its truest sense the power of positive thinking. And if you are one of those who are uncertain of what being optimistic can lead you to - then this might be the perfect time for you to discover how it can make changes in your life and probably, your family too.

Of course, we always expect that being optimistic will give you an assurance for an event to turn out fine. And what bad Positive Thinking: Think Positive Now Because Your Whole Life Depends On It thoughts bring you are just failures, hardships and things which just don't happen the way you wanted them to be. Well, you also know the fact that good breaks do not come your way often and the right way might not be open for you. Most researchers say that positive thoughts make illnesses and diseases go away as your positive thoughts can fight them as your brain pushes your body's immune system to combat the diseases. The power of positive thinking can not only change you emotionally but improve your health dramatically.
