Introduction

First of all, before I proceed I would like to thank you for purchasing this book. The very fact that you are reading this right now shows that you are interested in a vegan lifestyle or should I say “plant-based” lifestyle, which I believe is a step in the right direction toward the road of health and fitness. Deep down inside, we Veganized: How and why I transitioned to a plant based diet all share a common denominator. That common denominator is that we all would like to be healthy and fit. We all have searched the internet, read books, and tried different diets at some point. The problem is that there is TOO MUCH information about health and fitness available to us, I prefer to call it “information overload”.

Today, everyone is an “expert” on the topic of health and fitness. There are so many “gurus” out there ready to tell you to try this diet or that diet. Some diets work, while others fall by the wayside. Some diets are great when it comes to weight loss and building muscle, but somehow seem to lack something when it comes to health. Health and fitness should be synonymous. A healthy body is a fit body, but a fit body does not necessarily preclude to health. When we make health our top priority fitness is sure to follow.

A healthy body is a lean body, a strong body, and a clean body. In life many things come and go, but our body does not. It is our temple, with us from the second that we are born until the minute we die. It would only make sense for us to become the masters of our body. The faster we learn how the body functions, the faster we can use it for all of its wonderful and amazing abilities. We can feel happy, we can exercise, we can play sports, we can enjoy nature, we can dance, we can be creative, we can be more active with our families, and we can simply enjoy all that life has to offer when we are healthy and fit.

The reason that I put this book together is so I could compile all of the best knowledge that I have absorbed over the years through my experience and my studies into one place so that way it is easy for you to have access to the information that has completely changed my life. It is like having a secret that is too special to keep a secret and so I have to let it out, to you the reader. It would be selfish of me to keep this information to myself when it could be shared and in turn help someone, hopefully that someone is you!

I am not claiming to be perfect, nor am I forcing you to do something. I simply am telling you my experiences and beliefs in hopes that I can Veganized: How and why I transitioned to a plant based diet help you to achieve a wonderful level of health and fitness. I want to help you fulfill your potential. We Veganized: How and why I transitioned to a plant based diet all have the potential to do amazing things, but in order to do so we need to have a healthy body, a strong body, a fit body.
