Introduction

Weird Weird Heroes, A New American Pulp Heroes is a collective effort to do something new: to approach three popular heroic fantasy forms—science fiction, the pulps and the comics—from different and exciting directions.

Each story in this book is experimental. There are revitalizations of classic fantasy themes such as time travel and jungle adventure. There is innovative use of some of the most dynamic graphic story talent in the world, from Philippino illustrator Alex Nino to American cartoonist Ralph Reese. There is a strong and conscious effort to encourage storytelling which does not rely on violence as a primary source of drama.

Weird Heroes is a collective effort to give back to heroic fiction its thrilling sense of adventure and entertainment—the heartbeat of the old pulps. The pulps used heroes to bring fiction to a grand level of excitement—a level which *Weird Heroes, A New American Pulp* incorporated the reader into the experience. *Weird Heroes* refreshes that concept of fiction as an adventure in itself, without relating to the new wave of violence and pornography in the production of exciting stories.

Weird Heroes is a collection of memorable firsts—represents the first major publication of prose stories by both science fiction and graphic story writers. Within volumes 1 and 2 you will find the first published appearances of famous pulp biographer Philip Jose Farmer's epic pulp character, "Greatheart Silver." You'll be witness to the first major book publication of an interview with award-winning science *Weird Heroes, A New American Pulp* fiction and fantasy writer, Fritz Leiber. You'll experience the insanity of *Superman* author Elliot S. Maggin's *Weird Heroes, A New American Pulp* "*Gonzo Storytelling*" and discover the new hero by a literary descendant to Dashiell Hammett on *Secret Agent X-9*, Archie Goodwin.

Weird Heroes contains the first American book illustration work by award-winning Spanish artist Esteban Maroto. Jim Steranko and Neal Adams, two titans of the modern graphic story field, appear for the first time under the same cover in Volume 2. Tom Sutton, an unsung hero

of the comics with a comedic style that blends Kurtzman, Elder, and Eisner, also makes his book debut with five plates for “Showdown at Shootout.”

Perhaps this book would be more appropriately titled *New Heroes*, but in their own ways the characters herein are all very *different* sorts of new heroes and *Weird Heroes*, *A New American Pulp* heroines. **Different or, if you prefer, weird.**

The people responsible for these weird characters are no strangers to the world of heroes. The writers and artists involved with the book can take all or most of the credit for the chronicles of *Wonder Woman*, *Batman*, *Superman*, *Amos Burke*, *Flash Gordon*, *Nick Fury*, *the old Captain Marvel*, *Harlequin*, *the new Captain Marvel*, *the Avengers*, *The Avenger*, *The Beast*, *The Justice League of America*, *the new Manhunter*, *Doc Savage*, and *Phineas Pogg*.

Why, then, our new heroes Do we really need “heroes” at all?

Need is a strange word. Certainly we could do without Superman, Doc Savage or even astronaut Frank Borman; but these men were more than individuals doing some outstanding activity in the name of some cause. They were *symbols*—and that’s what all America’s lasting heroes are: *symbols*. Superman was and is a basic statement about humanity’s ability to do the apparently impossible. Frank Borman was and is a symbol of humanity’s ability to explore, discover, *expand*. Some heroes, such as Jack Kirby’s and Joe Simon’s *Captain America*, were symbols of their time. *Captain America*’s roots in 1941-vintage patriotism have since become the core of a new series of introspective adventures in which “Cap’s” WW II ideals are interfaced with the skepticism and challenges of a post-Watergate democracy.

In a time when our supposedly “real” heroes—elected officials, peacekeeping world bodies, chiefs of state, and public administrators—are too frequently being revealed as fraudulent, incompetent, or unscrupulous, the public affection for many of our fantasy heroes and heroines has remained intact. It has endured *Weird Heroes*, *A New American Pulp* because those characters represent basic hopes and dreams which people continue to share. They represent peace, justice, tenacity, and freedom.

For this, they are “needed”. *Weird Heroes*, *A New American Pulp* It is a healthy and important indicator that these heroes persist. It is less than healthy to see the parade of many of the new heroes: the Destructor, the Baroness, the Penetrator, the Eliminator. Death. Violence. Symbols that “justice” can be bought with the muzzle of a gun.

So we return to our new heroes. They are an outcry. A statement of **“No!—that’s not the only way things can be done.”** **Weird Heroes** is one alternative to other new heroes. Our characters are symbolic of different ideals, or at least of different ways to reach the same ideals. Ted White’s avocation of the sciences of the mind as a viable way to solve personal and social problems in “Doc Phoenix.” Archie Goodwin’s call for social responsibility and the recognition of the need for affirmative action in *Weird Heroes*, *A New American Pulp* “Adam Stalker.” Joann Kobin’s delineation of the realization that old age does not always mean inactivity in “Rose.”

A central message of some of the old pulps and many of the new paperback adventurers *Weird Heroes, A New American Pulp* is: **Violence can solve your problems**. central message of this new American pulp is **Respect life and enjoy it**.

If there is a common ground between this new American pulp and the old pulps, it is a feeling of enthusiasm. A feeling of fresh creative effort and *Weird Heroes, A New American Pulp* a hope that what we are doing is exciting.

If you have gone to a newsstand in search of the whereabouts *Weird Heroes, A New American Pulp* of wonder, I hope you'll find some of it here.

Ten Heroes, ten dreams, ten hopes.

Have a good time.

Introduction to Volume 1

On the cold, sunny day that *Weird Heroes, A New American Pulp* I delivered the manuscript for *Weird Heroes* to Pyramid Books' monolithic headquarters on New York's East Side, I had pains in my fingers and aches in my arms.

The book was heavy.

Pyramid agreed. Not only was the book heavy; it was too heavy. In the publishing world this can mean one of two things: either the *book* becomes the *books* or the book gets edited down to a slimmer form. Fortunately for Byron Preiss Visual Publications, Inc., Pyramid Publications, Inc. decided upon the former.

So here you are holding half of *Weird Heroes*.

Not quite. We have spent many hours deliberating about *Weird Heroes, A New American Pulp* a *Weird Heroes, A New American Pulp* way to split up the work so that each book would be a satisfying self-contained entity. We went as far as to commission an extra story from Philip Jose Farmer for *Weird Heroes, A New American Pulp Volume 2* so that *Volume 1* could contain the five stories we felt were most appropriate for it.

I think we've been *Weird Heroes, A New American Pulp* successful. While *Weird Heroes, A New American Pulp* the two volumes combined more fully represent the scope of this effort, *Volume 1* is an exciting dose of what we hope is *Weird Heroes, A New American Pulp* innovative heroic fiction. Within the pages of this book you will see over twenty pages of the most incredible fantasy art by some of the *Weird Heroes, A New American Pulp* most popular paperback and graphic story artists in the world. You will find three novella-length adventures and two remarkable short stories, the first of which is a self-contained prelude to an epic *Weird Heroes, A New American Pulp* tale of paradox and discovery. You will find the combined efforts of Philip *Weird Heroes, A New American Pulp* Jose Farmer, Jim Steranko, Joann Kobin, Dave Sheridan, Jeff Jones, Archie Goodwin, Tom Sutton, Alex Nino, Ron Goulart, and, oh yes, five weird heroes.
