I suppose everyone will be CEO of something, whether it be a little league team, a Why Brilliant People Believe Nonsense: A Practical Text For Critical and Creative Thinking family, or a multinational corporation. To be successful, leaders must assimilate information, weigh advice, and in short, THINK. Beyond helping us to recognize our flawed thinking, Miller provides a thorough roadmap to thinking more accurately and creatively. And fortunately for reluctant readers, he uses entertaining and insightful stories to make the subject matter come to life.
